

Athens Neighborhood Health Center Volunteer/Internship Procedure

Welcome

Thank you for your interest in field experience at the Athens Neighborhood Health Center.

We ask that all prospective students to complete our form so that we will be able to better place you during your internship/practicum at the Athens Neighborhood Health Center.

Please start this process several weeks (several months would be best) in advance of your desired start date.

IMPORTANT NOTICES:

1. We currently accept students from the University of Georgia departments of Public Health, School of Pharmacy, and School of Journalism.
2. If you are interested in volunteering or doing a practicum, please submit your resume, number of hours needed, and hours of availability to jrichardson@aneighbor.org
3. Pharmacy students applying for service learning hours should fill out the service learning application.
